

A satellite with two large solar panel arrays is shown in space, with the Earth's horizon and a blue glow visible in the background.

# DEVELOP YOUR CAREER

Are you a student, recent graduate, or  
early/transitioning career professional seeking to make a  
positive impact on the environment and society?

Join us to learn about  
**Applied Earth Science Opportunities**  
with the NASA DEVELOP National Program

**Wednesday, September 22<sup>nd</sup> @ 3:00pm ET**

The **NASA DEVELOP National Program** addresses environmental and public policy issues through interdisciplinary research projects that apply the lens of NASA Earth observations to community concerns around the globe. Teams of DEVELOP participants partner with decision makers to conduct 10-week, rapid feasibility projects that highlight relevant applications of NASA Earth observing missions, cultivate advanced skills, and increase understanding and use of NASA Earth science data and technology.
